Objective

The Fund seeks current income and long-term capital appreciation.

Performance

The latest available performance figures have been calculated net-of-fees in U.S. dollars for the period:

Cumulative and annualised total return as of March 31, 2024 (%)

	Quarter to date	Year to date	1 year	3 years (p.a.)	5 years (p.a.)	10 years (p.a.)	Since inception (p.a.)
NAV	3.38	3.38	8.60	1.58	6.73	6.10	9.73
Market price	4.71	4.71	5.52	-3.14	5.32	4.36	9.00

Past performance is no guarantee of future results. Investment returns and principal value will fluctuate and shares, when sold, may be worth more or less than original cost. Current performance may be lower or higher than the performance data quoted. NAV return data includes investment management fees, custodial charges and administrative fees (such as Director and legal fees) and assumes the reinvestment of all distributions. abrdn Inc. (the "Adviser") became the Fund's adviser on October 27, 2023. For periods prior to that date, the returns reflect performance information from a prior, unaffiliated adviser. The Fund is subject to investment risk, including the possible loss of principal. Returns for periods less than one year are not annualized.

Investment management philosophy

The Investment Adviser to the Fund believes that:

- Aging demographics and adoption of new medical products and services can provide long-term tailwinds for healthcare companies
- Late stage biotechnology and pharma product pipeline could lead to significant increases in biotechnology sales
- Investment opportunity spans 11 sub-sectors including biotechnology, health care, technology, managed care and health care REITs
- Robust M&A activity in health care may create additional investment opportunities

Important risk disclosure

All performance shown is historical, assumes reinvestment of all dividends and capital gain distributions and does not guarantee future results. Investment return and principal value fluctuate with changing market conditions so when sold, shares may be worth more or less than that of the original cost. Total return based on market price reflects changes in market value. Total return based on net asset value reflects changes in the fund's net asset value during each period. Current performance may be lower or higher than the performance data quoted. This commentary is for informational purposes only, and is not intended as an offer or recommendation with respect to the purchase or sale of any security, option, future or other derivatives in such securities.

Closed-end funds are traded on the secondary market through one of the stock exchanges. The Fund's investment return and principal value will fluctuate so that an investor's shares may be worth more or less than the original cost. Shares of closed-end funds may trade above (a premium) or below (a discount) the net asset value (NAV) of the Fund. The net asset value (NAV) is the value of an entity's assets less the value of its liabilities. The market price is the current price at which an asset can be bought or sold. There is no assurance that the Fund will achieve its investment objective. Past performance does not guarantee future results.
